STANDARD OPERATING PROCEDURES (SOP) OF RETURN OF INTERNATIONAL STUDENTS TO MALAYSIA
20th July 2020

Dear Students,

Hope you have been staying well and staying safe.

Please note that EMGS has issued the STANDARD OPERATING PROCEDURES (SOP) for the return of International Students to Malaysia. We now have a detailed SOP for the arrival of APU/APIIT International Students to Malaysia.

Please see attached APU SOP and also EMGS SOPs for all returning and new international students. All new students who have not received their electronic Visa Approval Letter (eVAL) should wait until it is issued. We will keep you informed once the eVAL is issued.

Please click the links below to view/download:

- EMGS Standard Operating Procedures (SOP) for Arrival of International Students to Malaysia
- EMGS - Clarification for International Students and Institutions on application processing during and post the Movement Control Order period
- APU / APIIT Standard Operating Procedures (SOP) for Arrival of International Students to Malaysia

Over the last 3 weeks, APU has already resumed classes (in some cases, only Labs, Studios and Workshops) on campus for selected levels of study in stages, based on strict guidelines issued by the Ministry of Higher Education (MOHE).

We now plan to resume classes on campus for all levels of study from early August 2020, based on the latest guidelines & SOPs by the Ministry of Higher Education (MOHE) allowing up to a maximum of 30% of the total population on campus at any one time. However, the current semester will continue to be online (in dual-mode) as many students are still overseas or outstation.

If you have any queries related to arrival SOPs, please contact arrivals-control@apu.edu.my. We look forward to welcome you soon. Please stay safe and prepare well for your travel to Malaysia.

Regards,

APU Arrivals Control Centre
