REVOLUTION IN THE MAKING
The Asia Pacific University of Technology & Innovation (APU) is amongst Malaysia’s Premier Private Universities, and is where a unique fusion of technology, innovation and creativity works effectively towards preparing graduates for significant roles in business and society globally. APU has earned an enviable reputation as an award-winning University through its achievements in winning a host of prestigious awards at national and international levels.

Originally established as the Asia Pacific Institute of Information Technology (APIIT) in 1993 and Asia Pacific University College of Technology & Innovation (UCTI) in 2004, APU’s sound approach to nurturing school leavers into qualified professionals has resulted in our graduates being highly sought after by employers. With an international student community from more than 100 countries studying in its Malaysian campus, APU offers a truly cosmopolitan learning environment which prepares students well for the global challenges which lie ahead. APU offers a wide range of degrees with Technology as a common core.

It is APU’s aim to nurture and encourage innovation through our programmes of study, with the intention of producing individuals who will learn, adapt and think differently in new and better ways.

The Asia Pacific University has and always will, continue to develop and deliver its academic programmes through unique and well-established international partnerships, particularly with Staffordshire University UK but also with other partners throughout the world. This formidable combination of Malaysian homegrown programmes fortified with international benchmarking, provides our students with the assurance that the qualifications gained from APU truly meet international quality standards.

APU was announced as among the Highest Rated Universities in Malaysia, being rated at TIER 5 (EXCELLENT) under the SETARA 2011 Ratings by the Ministry of Higher Education (MOHE) and Malaysian Qualifications Agency (MQA) which was announced by the Y.Bhg. Minister of Higher Education on 1st November 2012.

APU’s achievements bear testimony to our commitment to excellence in higher education and training, as well as innovative research and development and commercialisation. APU (via APIIT) is Malaysia’s first Institution to achieve Multimedia Super Corridor (MSC) Company Status. Through our network of APIIT Education Group branch campuses established in Sri Lanka and India, APU also reaches out to young aspiring professionals in these countries, providing them with a unique opportunity of experiencing international best practices in higher education using curricula, processes, resources and systems which have been developed in Malaysia. APU’s academic programmes are approved by the Ministry of Higher Education of Malaysia and the qualifications are accredited by the Malaysian Qualifications Agency (MQA).
The APIIT Education Group received the prestigious Prime Minister’s Industry Excellence Award from the Prime Minister of Malaysia, Dato’ Sri Mohd Najib Tun Razak. Only one organisation was selected to receive the Prime Minister’s Industry Excellence Award from among nearly 30 other award recipients in 8 different categories.

The Industry Excellence Awards, organised by the Ministry of International Trade & Industry (MITI), recognises and rewards organisations for organisational excellence including competitiveness, innovativeness, market presence and export performance. Winning the Prime Minister’s Industry Excellence Award is a significant milestone and an honour for APU as a leader in higher education. The award truly reflects our commitment and focus on quality, innovation, graduate employability and internationalisation.
Some facts about Staffordshire University are:

- Staffordshire University’s strong focus on employability was underlined in the UK Sunday Times newspaper’s 2010 University League Tables, in which it was recognised as a leading UK university for achieving graduate employment.
- One of the first universities in the world to offer computing degrees back in the 1960s, Staffordshire maintains a strong reputation for excellence and innovation in teaching technology-based subjects.
- The University’s Computing, Computer Games Design, Network Security, Mechanical, Electrical, Electronic and Automotive Engineering awards are all highly respected by employers globally.
- Staffordshire’s Accounting and Finance, Business Studies, Economics, Management and Marketing degrees have all been designed to provide a truly international perspective. This is a real benefit for students wishing to pursue a career in Business or Commerce.
- The University’s learning community is truly global. At any one time, in excess of 17,000 students from over 75 countries are studying in Great Britain, by distance learning, or on Staffordshire University quality-accredited courses internationally.

APU’s programmes are subjected to extensively External Quality Assurance processes by Staffordshire University, who also award the Undergraduate Degrees. This ensures that our programmes are benchmarked against international standards.

In addition, our solid relationship with Staffordshire University is among the strongest and most successful foreign collaborations in Malaysia, and is particularly notable in our strong shared mission of producing highly employable graduates.

All these things combine to create a university with considerable global expertise - a university that APU is proud to partner with.
Learning for Employability

Employers look for qualified people who have the technical know-how and the ability to communicate, work in teams and other personal skills.
At APU, our programmes are developed to provide you not only with interesting and stimulating modules to develop your mind, but also to enhance your knowledge and skills and increase your ability to compete for that dream job. You also need to possess the ability to learn, develop and adapt. Much of what is current knowledge will soon be out-of-date and the reality is that to succeed you need to be adaptable and innovative. We achieve this through the Five “I”s Model™:

The Five “I”s Model™

1: Innovation through the design of curriculum, the module content and the learning approaches
2: Integration through developing your capabilities to interrelate knowledge and to work in multidisciplinary teams
3: Information through developing your knowledge and also your abilities to communicate effectively and persuasively
4: Interactivity through the use of group work to develop your teamwork skills and through the use of technology to achieve interactivity of devices and people
5: Imagination in relation to new products, ideas, applications and solutions
The Dual Degree Programmes (DDP)

The Dual Degree Programmes are offered through a unique collaborative partnership between APU and Staffordshire University, United Kingdom, through which Staffordshire accredits undergraduate programmes that are designed and delivered by APU. On completion of the programme, students will be awarded two undergraduate degree Certificates and Transcripts: one from APU and one from Staffordshire University.

The programme provides students with enhanced opportunities for further study and career development, especially since both degrees are earned from reputed and quality Institutions from two different countries. The most obvious benefit of the partnership is the opportunity for students to gain degrees from Malaysian and UK higher education institutions that are recognised locally and internationally.

The APU-Staffordshire Dual Degree Programmes are offered under an approved collaboration in accordance with the Code of Practice for the Assurance of Academic Quality and Standards in Higher Education as published by the United Kingdom Quality Assurance Agency’s (QAA). APU’s academic programmes are approved by the Ministry of Higher Education of Malaysia and the qualifications are accredited by the Malaysian Qualifications Agency (MQA).
### Careers in Business & Management

All businesses need more efficient, effective and competitive operations. Depending on your choice of degree, some examples of careers include:

<table>
<thead>
<tr>
<th>Degree</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>BA (Hons) in Business Management</strong></td>
<td>Any functional area of business such as sales, administration, marketing, purchasing, personnel, retail, manufacturing operations, export activities, distribution management, etc.</td>
</tr>
<tr>
<td><strong>BA (Hons) in Business Management with a specialism in E-Business</strong></td>
<td>You develop the necessary critical intellectual ability to enable you to develop careers in e-business, e-government, e-education and e-services to name a few. Careers in E-Business would include New Business Development Management, Marketing Manager, E-Business Consultant and Technopreneur.</td>
</tr>
<tr>
<td><strong>BA (Hons) in International Business Management</strong></td>
<td>Any functional areas including sales, marketing, personnel and also distribution. These are common in larger companies with international links or those engaged in the import/export business, and may also include smaller companies seeking export business.</td>

| **BSc (Hons) in Media Informatics** | Employment options include advertising, promotions and PR, as well as the press and broadcast organisations. Functional areas include creative, media production (pre and post), sales and customer service. |
Whether you join APU immediately after your secondary education or transfer to us from another institution of higher learning, we offer programmes at several levels and entry points, depending on your prior qualifications and experience. There will be a clear progression of your learning to ensure that you will be empowered with the necessary skills and knowledge to enter the corporate world.

At APU, our business programmes are designed to provide flexibility and choice. All the business programmes have the same modules in the first year except for Media and Tourism. This then allows you to decide which business degree you would choose in the second year and continue in the third year to graduation.

If you enter our Foundation programme first, you will take a range of modules that prepare you for the degree and help you to select which degree to pursue. At all times, our staff will be able to advise you on the choices available at each stage of your study.

STPM / 'O' Levels / UEC or equivalent

Honours Degree Level 1 (1 year)
Honours Degree Level 2 (1 year)
Honours Degree Level 3 (6 months)
Masters Degree (16 months)

Dual Degree Awarded by APU & Staffordshire University
Admission Requirements

FOUNDATION PROGRAMME

The Foundation Programmes give you an opportunity to sample your future study areas and this helps you choose which Degree Level 1 Programme you will eventually pursue.

- An overall credit pass in at least 5 subjects at SPM level and a minimum of a pass in Bahasa Malaysia and Sejarah (History); or
- 5 grade C passes at ‘O’ Level / GCSE; or
- A qualification that APU accepts as equivalent to the above.

DIPLOMA PROGRAMMES

- An overall credit pass in 3 subjects and a minimum of a pass in Bahasa Malaysia and Sejarah (History) at SPM level;
- 3 Grade C passes at ‘O’ Levels / GCSE; or
- A qualification that APU accepts as equivalent to the above.

BACHELORS (HONS) DEGREE PROGRAMMES

Direct Entry to Level 1 of the Degree:

- 2 principal passes at STPM level; or
- 2 passes at ‘A’ Levels and 4 Grade C passes at ‘O’ Levels / GCSE; or
- The APU Foundation or equivalent; or
- A qualification that APU accepts as equivalent to the above.

Direct Entry to Level 2 of the Degree:

- Successful completion of the APU Diploma; or
- Successful completion of studies in another recognised institute with academic credits equivalent to Level 1 of an Honours degree.

(Subject to the approval of the APU Academic Board)

ENGLISH REQUIREMENTS

(only applicable for International Students)

Foundation and Diploma Programmes

- IELTS : 5.5
- TOEFL : 65 (Internet Based Test), 513 (Paper Based Test), 183 (Computer Based Test)
- Other Certification or Evidence of English Proficiency that APU accepts as equivalent to the above

Applicants who do not possess the above will be required to sit for the APU English Placement Test, and based on the outcome of the test may be required to attend the APU Intensive English Programme (IEP) prior to commencement of the Foundation/Diploma programme.

Bachelors (Hons) Degree Programmes

- IELTS : 6.0
- TOEFL : 79-80 (Internet Based Test), 550 (Paper Based Test), 213 (Computer Based Test)
- Other Certification or Evidence of English Proficiency that APU accepts as equivalent to the above

Applicants who do not possess the above will be required to sit for the APU English Placement Test, and based on the outcome of the test may be required to attend the APU Intensive English Programme (IEP) prior to commencement of the Degree programme.

(Note that for the programmes listed here, a pass in Bahasa Malaysia and Sejarah (History) at SPM level is required for all Malaysian students).
Flexibility of Choice

Our 12-month Foundation Programme is designed to prepare those with SPM, ‘O’ Levels or similar qualifications with the knowledge and skills to progress into the first year of a degree of their choice.

On completion of the Foundation Programme, you will be able to make an informed decision about your interest and pursue your degree of choice.

During the Foundation Programme, you are able to choose different routes depending on your area of interest. This will allow you to progress onto a specific degree programme at APU, related to this area or other relevant areas based on your foundation experience.

LEMNING OUTCOMES

You will be able to:

• Enter Level 1 of degree study
• Make an informed choice about what degree you want to study
• Demonstrate an awareness of the concepts which underpin the study of Business, Technology, Media, Accounting, Banking and Finance, Quantitative Studies, IT or Engineering
• Communicate effectively verbally and in writing to a given audience
• Work effectively in a team
• Demonstrate English and other study skills appropriate to undergraduate learning
• Apply skills in numeracy, technology and communication
• Explain the essential elements of technology
• Use appropriate application software and the Internet
The Foundation Programme

The modules studied help develop your study skills, introduce you to what you can expect on your degree and also allow you to discover what you can study depending on whether you choose a degree in Business, Accounting & Finance, Banking & Finance, Actuarial Studies, Media, Information Technology or Engineering. The modules are:

- BA (Hons) in Media Marketing with a specialism in Social Media
In an era of global transformation the demands placed upon business leaders to provide leadership and insights have become imperative. The School of Business & Management at the APU prepares students for a role that gives them an industry relevant edge.

At the School of Business & Management at the APU, we continually demonstrate high quality international curriculum through our portfolio of Business & Management degrees at both undergraduate and post graduate levels.

With a mission to develop global ready graduates, our teaching faculty engages in industry relevant research that embodies academic rigour and forward thinking to prepare our graduates towards a rewarding career.
### Business & Management Study Pathways

(DUAL Degrees awarded by APU & Staffordshire University, United Kingdom)

#### DEGREE PROGRAMMES

<table>
<thead>
<tr>
<th>Common Level 1</th>
<th>PROGRAMMES</th>
</tr>
</thead>
</table>
| Common Level 1* | • BA (Hons) in Business Management  
  • BA (Hons) in Business Management with a specialism in E-Business  
  • BA (Hons) in International Business Management  
  • BA (Hons) in Marketing Management  
  • BA (Hons) in Human Resource Management |
| Common Level 1* | • BA (Hons) in Tourism Management  
  • BA (Hons) in Services Management |
| Common Level 1* | • BA (Hons) in Media Marketing  
  • BA (Hons) in Media Marketing with a specialism in Social Media  
  • BSc (Hons) in Media Informatics |

Note: *Although Level 1 is common for some programmes, students who are on scholarships or loans (e.g. PTPTN, MARA etc) are required to decide on your degree upon commencement and are not allowed to change to another programme unless approved by the Loan/Scholarship provider. International Students are required to re-apply for a new Student Pass (visa) should they decide to change the programme.*
In this semester students will be equipped with basic mathematical, language and communication as well as information technology skills. Throughout the duration of the semester, students will be exposed to various terminologies and basic concepts related to business managerial skills. These skills are imperative for a smooth transition to the following semester.

**Modules**
- English for Academic Purposes
- Numerical Skills
- Managing Business
- Practical IT Skills

**SEMESTER 1**

The modules Professional Communications, Academic Research Skills and Quantitative Methods that are offered in this semester help to further develop students’ knowledge and skills significantly with emphasis on aspects that are core to the study of business. Also the Fundamentals of Entrepreneurship module will begin to take the student through the process and the methods involved in the early stages of venture creation.

**Modules**
- Professional Communications
- Academic Research Skills
- Fundamentals of Entrepreneurship
- Quantitative Methods

**SEMESTER 2**

This semester moves the students from the basic business concepts and procedures to more advanced topics like People Management, Marketing and Business Economics. Financial Accounting module will expand their knowledge and efficiency in solving problems and making decisions in different areas of business.

**Modules**
- People Management
- Financial Accounting
- Marketing
- Business Economics

**SEMESTER 3**

The modules in this semester are aimed at equipping students with the knowledge and skills in the legal, statistical and financial aspects of business. In addition, students are exposed to International Business module which allows the students to understand the environmental and cultural issues facing global organisations. Besides, the Managing Information Systems module will also introduce the students to applications of business data communications.

**Modules**
- Legal Framework of Business
- International Business
- Business Statistics
- Principles of Finance
- Managing Information Systems

**SEMESTER 4**

The final semester allows students to progress into more advanced areas of business and management. Students will experience a balance of business theories and practical applications. In addition, students will also select 2 option modules during the semester. Supported by accounting module, they are expected to be able to demonstrate cognitive and intellectual skills relevant to business.

**Modules**
- Organisational Behaviour
- Managing Services
- Cost Accounting

**Option Modules A**
- Consumer Behaviour
- Business Operations
- Computer Technology

**Option Modules B**
- E-Business
- E-Commerce
- Internet Applications

*In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.*

**FURTHER STUDIES**

Upon successful completion of this programme, you will be eligible to progress into any of the following degree programmes offered at APU:
- BA (Hons) in Business Management
- BA (Hons) in Business Management with a specialism in E-Business
- BA (Hons) in International Business Management
- BA (Hons) in Marketing Management
- BA (Hons) in Human Resource Management
Diploma in Business with Information Technology

This programme is specifically designed to provide:

- Students for careers in hybrid environments where business information systems are increasingly integrated, encompassing a wide range of enabling technologies and cross-organisational, social, national and international boundaries.
- Students with academic and professional skills to develop solutions requiring the application of both business and information technology disciplines in a commercial and organisational context.
- Students with critical, independent and cooperative learning skills so as to facilitate responses to continuous future changes in technology and industry practices.
- Students with intellectual skills, communications ability and team working capability.

**SEMESTER 1**
In this semester students will be equipped with basic mathematical, language and communication as well as information technology skills. Throughout the duration of this semester, students will have the opportunity to expose themselves to various terminologies and basic concepts related to business managerial skills. These skills are imperative for a smooth transition to the following semester.

**SEMESTER 2**
The modules Professional Communications, Academic Research Skills and Quantitative Methods that are offered in this semester help to develop students’ knowledge and skills significantly with emphasis on aspects that are core to the study of business. The module Information Systems provides students with details of the underpinning components of any information systems for more advanced study in subsequent semesters.

**SEMESTER 3**
This semester moves the students from the basic business concepts and procedures to more advanced topics like Marketing and Business Economics. There are also modules in related subjects such as Computer Technology and Internet Applications which will expand their knowledge and efficiency in solving problems and making decisions in different areas of business, supported by technology.

**SEMESTER 4**
The modules in this semester aimed at equipping students with the knowledge and skills in the legal, statistical and accounting aspects of business. In addition, students are exposed to the Multimedia Application where students will learn the fundamental knowledge and skills necessary to create and document an interactive multimedia application.

**SEMESTER 5**
The final semester allows students to progress into more advanced areas of business, management together with computing and information technology skills which includes programming knowledge and networks & networking. Graduates will be able to demonstrate a range of cognitive and intellectual skills together with techniques specific to business, management and information technology.

*In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.*

**FURTHER STUDIES**
Upon successful completion of this programme, you will be eligible to progress into any of the following degree programmes offered at APU:
- BA (Hons) in Business Management
- BA (Hons) in Business Management with a specialism in E-Business
- BA (Hons) in International Business Management
- BSc (Hons) in Technopreneurship
- BSc (Hons) in Information Technology with a specialism in Business Information Systems
- BSc (Hons) in Business Information Technology
- BSc (Hons) in Business Computing
LEVEL 1

Level 1 comprises 10 common modules within all management awards. The Legal, Business Environment and Computing & IT in the Workplace modules provide a context within which businesses operate.

The Business & Communications Skills and Introduction to Services Management modules provide the skills and competencies that will be used throughout the programme. You are then introduced to the four principal functions of a business - Management, Marketing, People Management and Accounting. Important and relevant skills for independent learning are also introduced.

Common Modules

• Accounting Skills
• Business and Communications Skills
• Business Environment
• Computing and IT in the Workplace
• Introduction to Management
• Introduction to Services Management
• Legal Environment of Business
• Marketing
• People Management
• Quantitative Skills

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

Here, specific modules deal with organisational and customer-related issues with emphasis on delivering value to customers. These are common to all management programmes. The other modules provide a broad understanding of Accounting, Operations and Management in an organisation.

Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

Common Modules

• An understanding of the context, nature, role and significance of management activities as undertaken by managers in a range of organisations.
• An opportunity to develop well-researched, logical and integrated solutions to multi-faceted problems in uncertain and dynamic contexts.
• Exposure to the areas of modern Business Management and how these work in concert to produce efficient, agile and customer-centric organisations.

LEVEL 3

Here, the emphasis is on strategy and decision-making alongside the more practical issues of managing for enterprise, performance and problem-solving. Particular focus is given to exploring modern issues in business management through modules such as Contemporary Management, The Changing Face of Management, Managing Change and Enterprise Management. In addition you will delve into strategic aspects of management generally and Human Resources in particular.

Investigations in Business Management will involve exploration of a topic chosen by you. The Project further develops the academic and practical aspects of your chosen area of study and reinforces your independent Business Management learning skills.

Common Modules

• Corporate Finance
• Strategic Management

Specialised Modules

• Financial Management
• Managing Information System in Organisation
• Research Methods

• E-Business Management
• Commercial Law
• Critical Thinking in Management
• Operations Management
• Quality Management
• Services Management

• Behavioural Science in the Organisation
• Business Ethics and Governance
• Delivering Customer Value
• Financial Management
• Managing Information System in Organisation
• Research Methods

• Asian Success and the Global Economy
• Business Management Project
• Contemporary Management
• Enterprising Management
• Investigation in Business Management
• Managing Change
• Managing people and Performance
• Strategic Marketing Planning
• Strategic Planning for Information System
LEVEL 1
Level 1 comprises 10 common modules within all management awards. The Legal, Business Environment and Computing & IT in the Workplace modules provide a context within which businesses operate. The Business & Communications Skills and Introduction to Services Management modules provide the skills and competence that will be used throughout the programme. You are then introduced to the four principal functions of a business - Management, Marketing, People Management and Accounting. Important and relevant skills for independent learning are also introduced.

LEVEL 2
Two modules deal with organisational issues and two with customer related issues designed to deliver value. These are common to all management courses. The other modules provide a broad understanding of the Accounting, Operations and Management issues in an organization. The specialism contains 4 modules which explore Electronic aspects of Commerce, Business, Tourism and Marketing. Independent learning continues in all modules but is a particular focus and requirement in Research Investigations.

LEVEL 3
The emphasis is on strategy and decision making alongside the more practical issues of managing for enterprise, performance and problem solving. The specialism explores specific E-Business aspects such as Internet Payment Systems and Promotion as well as E-Business Strategy. The Project further develops the student’s academic and practical aspects of their areas of study in E-Business and reinforces their independent learning skills.

Common Modules
- Accounting Skills
- Business and Communications Skills
- Business Environment
- Computing and IT in the Workplace
- Introduction to Management
- Legal Environment of Business
- Marketing
- People Management
- Quantitative Skills

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

Common Modules
- Behavioural Science in the Organisation
- Business Ethics and Governance
- Delivering Customer Value
- Financial Management
- Managing Information System in Organisation
- Research Methods

Specialised Modules
- Creativity and Innovation
- Critical Thinking in Management
- E-Business Management

- E-Marketing
- Operations Management

Common Modules
- Corporate Finance
- Strategic Management

Specialised Modules
- Contemporary Management
- E-Business Project
- E-Business Procurement
- E-Business Strategy
- Global Marketing
- Integrated Marketing Communications
- Internet Payment System
- Investigation in e-Business
- Managing Change

Note: The specialism will appear only in the academic transcript.
LEVEL 1
Level 1 comprises 10 common modules within all management awards. The Legal, Business Environment and Computing & IT in the Workplace modules provide a context within which businesses operate.

The Business & Communications Skills and Introduction to Services Management modules provide the skills and competence that will be used throughout the programme. You are then introduced to the four principal functions of a business - Management, Marketing, People Management and Accounting. Important and relevant skills for independent learning are also introduced.

LEVEL 2
Here, specific modules deal with organisational and customer-related issues with emphasis on delivering value to the customers. These are common to all management programmes. The other modules provide a broad understanding of Accounting, Operations and Management in an organisation.

Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

LEVEL 3
Here, the emphasis is on strategy and decision-making in an international context. There are modules in the international dimensions of Finance, HRM, Marketing, Supply Chain Management and Strategic Management. The objective is to explore understanding and to analyse business management internationally where businesses must act global and think local, sometimes referred to as “Glocalisation”. The module on Asian Success in the Global Economy places particular emphasis on how businesses in this region have competed in the global marketplace. This is reinforced by the module on Problem-Solving and another on Decision-Making.

The Project further develops the academic and practical aspects of your chosen area of study in International Business and reinforces your independent learning skills.

Common Modules
• Accounting Skills
• Business and Communications Skills
• Business Environment
• Computing and IT in the Workplace
• Introduction to Management
• Introduction to Services Management
• Legal Environment of Business
• Marketing
• People Management
• Quantitative Skills

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

Common Modules
• Corporate Finance
• Strategic Management

Specialised Modules
• Asian Success and the Global Economy
• Global Marketing
• International Business Management Project
• International Corporate Finance
• International HRM
• International Strategic Management
• Investigation in International Business Management
• Managing International Supply Chains
• Managing People and Performance
LEVEL 1

Level 1 comprises 10 common modules within all management awards. The Legal, Business Environment and Computing & IT in the Workplace modules provide a context within which businesses operate.

The Business & Communications Skills and Introduction to Services Management modules provide the skills and competence that will be used throughout the programme. You are then introduced to the four principal functions of a business - Management, Marketing, People Management and Accounting. Important and relevant skills for independent learning are also introduced.

- People Management
- Quantitative Skills

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

The emphasis is on Marketing and Customer Value Delivery alongside the more practical issues of managing for enterprise, performance and problem-solving.

Marketing is developed through studies of Information (Research and Advertising), Electronic Marketing (Interactive Marketing & E-Marketing) and an understanding of Customer Relations and of Creativity & Innovation.

Common Modules
- Behavioral Science in Organisation
- Commercial Law
- Creativity and Innovation
- Critical Thinking in Management
- Research Methods
- Business Ethics and Governance

Specialised Modules
- Marketing Intelligence and Research
- Integrated Marketing Communication 1
- B2B Marketing
- E-Marketing
- Delivering Customer Value
- Customer Lifestyle and Behavior

LEVEL 3

The emphasis is on Marketing strategy and decision-making alongside further issues of managing for enterprise, performance and problem-solving. Central to your studies is the consideration of exciting new opportunities to develop New Products and to be able to develop effective Marketing Communications which integrate the wide array of media available. Brand Management and the consideration of Customer Relationships explore the competitive advantage which can be exploited by proper use of such intangibles. The application of Marketing in various growth sectors is also considered through modules in Retail Marketing and Marketing People, Places and Performance.

The Project further develops the academic and practical aspects of your chosen area of study in Marketing Management and reinforces your independent learning skills.

Specialised Modules
- Brand Management
- Building Customer Relationship
- Global Marketing
- Innovation Management and New Product Development
- Integrated Marketing Communication
- Investigations in Marketing Management
- Marketing Decision Making
- Marketing Management Project
- Marketing People, Places and Performance
- Retail Marketing Management
- Strategic Marketing Planning

BA (Hons) in Marketing Management

• An understanding of theories and concepts that underpin effective marketing and the practical skills required to start a career in marketing.
• Exposure to key areas including customer lifestyles and behaviour, customer values, marketing communications, international marketing, marketing decision-making and marketing management.
• A combination with other marketing and general business modules allowing students to gain a clear understanding of the vital role of marketing within the business context.
• Exposure to how the marketing discipline makes its impact in a variety of contexts.
LEVEL 1
Level 1 comprises 10 common modules within all management awards. The Legal, Business Environment and Computing & IT in the Workplace modules provide a context within which businesses operate. The Business & Communications Skills and Introduction to Services Management modules provide the skills and competence that will be used throughout the programme. You are then introduced to the four principal functions of a business - Management, Marketing, People Management and Accounting. Important and relevant skills for independent learning are also introduced.

LEVEL 2
The emphasis is on strategy and decision-making alongside the more practical issues of managing for enterprise, performance and problem-solving. There is also an emphasis on aspects of the employee including Employee Relations, Employee Development, Employment Law and Effective Performance. Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

LEVEL 3
The emphasis is on strategy and decision-making, through modules which emphasise the changing practices of management and HRM Strategy, as well as International HRM and People & Performance Management. You will not only study modules which deal with contemporary ideas about managing people, change and HRM strategy, but will also consider these issues within the increasingly international arena of managing HRM. The HRM Project further develops the academic and practical aspects of your chosen area of study and reinforces your independent learning skills.

Common Modules
• Accounting Skills
• Business and Communications Skills
• Business Environment
• Computing and IT in the Workplace
• Introduction to Management
• Introduction to Services Management
• Legal Environment of Business
• Marketing
• People Management
• Quantitative Skills

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfil credit requirements for Co-Curricular Activities.

Specialised Modules
• Critical Thinking in Management
• Employee Development
• Employee Relations
• Employment Law
• Learning Knowledge and Effective Performance
• Quality Management

Common Modules
• Corporate Finance
• Strategic Management

Specialised Modules
• Contemporary Management
• Human Resource Management Project
• International HRM
• Investigation in HRM
• Managing People and Performance
• Managing Change
• People Management Debate
• Strategic HRM
• Strategic Planning for Information System
LEVEL 2

Level 2 offers the general management course modules in organizational and customer issues and then provides modules which consider a variety of sectoral applications within Tourism Management e.g. Recreational Tourism, Sports Tourism, Urban & Rural Tourism, Visitor Attractions, etc. in which various business topics, techniques and approaches are integrated.

Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

You may, if you wish, take the option of a work placement before the start of Level 3.

LEVEL 3

The emphasis here is on the strategic and marketing aspects together with environmental issues and a continuation of sectoral applications such as Sports Centre & Conferences, Exhibitions & Events.

The Project further develops your academic and practical aspects of your areas of study and reinforces your independent learning skills.
### LEVEL 1

This is the same as Level 1 for the Tourism Management Programme so that you can sample the subject area before deciding whether or not a Programme in Services Management is right for you.

The Legal, Business Environment, and Computing and IT in the Workplace modules provide you with a context within which Business operates. The Business and Communications Skills module provides the skills and competence that will be used throughout the course.

You are introduced to the four principal functions of a business; Management, Marketing, People Management & Accounting. The importance of, and relevant skills for independent learning are also introduced. Introduction to Services Management builds on the earlier Introduction to Management by exploring the specific issues involved in managing services. The module Introduction to Travel & Tourism provides the necessary pre-requisites for later modules.

### LEVEL 2

The Organisational & Customer Value modules provide a common input to other management courses in the Programme. However the other modules consider various services application sectors (Professional Services Management, Tourism, Recreation, and Financial Services) and their integrated management as well as important areas of business for services management including Advertising and Public Relations, Research Methods, and B2B Marketing.

You may, if you wish, take the option of a work placement before the start of Level 3.

### LEVEL 3

The emphasis here is on Strategy and Marketing together with modules that deal with issues which are particularly prominent in services management such as Performance Management, Customer Relationships, People Management and high people contact applications such as Retailing, Conferences, Exhibitions and Events. The Project further develops the academic and practical aspects of your areas of study and reinforces your independent learning skills.

BSc (Hons) in Media Informatics

This programme is specifically designed to provide:

• The skills and abilities required to develop effective interactive multimedia applications.
• A thorough understanding of issues in the areas of user interface design and human-computer interaction.
• An understanding of the nature of mass media, multimedia, and marketing communications.

 LEVEL 1

Level 1 is common to both the BA (Hons) in Media Marketing and the BSc (Hons) in Media Informatics, and is designed to make an informed choice between these two degrees at Level 2. This level introduces you to new media aspects of business, communication, and multimedia. Skills relevant to the general environment of business and IT are introduced, along with important and relevant skills for independent learning.

 LEVEL 2

Compared with the BA (Hons) in Media Marketing there is a greater emphasis on multimedia techniques and tools. You will learn essential aspects of marketing communications, with a particular emphasis on writing and the use of modern media for communications and promoting. Along with independent learning, a common theme in all APU ICT awards is fostering creativity and innovation in individuals and teams. These themes are the specific focus of the Creativity & Innovation and Research Methods modules.

 LEVEL 3

At this level there is further development of relevant technical skills and the ability to apply these skills with strong critical thinking and analysis. Specialised modules in multimedia, animation, and usability give you in depth understanding of the technologies as well as the requirements and options for design and implementation. Alongside this you will gain further understanding of the nature of media and marketing communications, and the practical uses and problems of multimedia.

Common Modules with BA (Hons) in Media Marketing and BA (Hons) in Media Marketing with a specialism in Social Media

• Audio Visual Technology
• Business and Communications Skills
• Computing and IT in the Workplace
• Digital Image Production
• Interactive Media and Web Design Technology
• Introduction to Management
• Introduction to Theories of Media and Culture
• Marketing
• Mass Media to Multimedia
• Understanding the Press

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

Common Modules

• Advertising
• B2B Marketing
• Multimedia for Presenting and Promoting
• New Creative Media Industries
• Public Relations
• Research Methods
• Script Writing for Radio & TV

Specialised Modules

• Creativity & Innovation
• Developing Interactive Multimedia
• Icon and Time Based Multimedia
• Professional & Enterprise Development
• Visual Communication

Common Modules

• Audiences, Consumption and Technology
• Copywriting
• Integrated Marketing Communications
• Media, Ethics and Politics
• Strategic Marketing Planning
• Video Recording & Production

Specialised Modules

• Advanced Multimedia
• HCI and Usability
• Investigations in Media Informatics
• Media Informatics Project
• Multimedia Techniques For Animation, Games & Film Effects
**LEVEL 1**

Level 1 is common to both Media awards and is designed to enable you to make an informed choice between these alternatives at Level 2. This Level introduces you to new media, aspects of Management & Marketing and Multimedia. The skills relevant for business and IT in the workplace are also covered. Important and relevant skills for independent learning are introduced.

### Common Modules
- Audio Visual Technology
- Business and Communications Skills
- Computing and IT in the Workplace
- Digital Image Production
- Interactive Media and Web Design Technology
- Introduction to Management
- Introduction to Theories of Media and Culture
- Marketing
- Mass Media to Multimedia
- Understanding the Press

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

**LEVEL 2**

The three areas of focus at this level are Media, Marketing Communications and Multimedia. You will also develop awareness and skills in dealing effectively with customers. All the modules address one or more aspects of these areas. Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

### Common Modules
- Advertising
- Creativity and Innovation
- Media Culture and Society
- Multimedia for Presenting and Promoting
- New Creative Media Industries
- Public Relations
- Research Methods
- Script Writing for Radio & TV

### Specialised Modules
- Communications Audit
- Customer Lifestyles and Behaviour
- E-Marketing
- Interactive Marketing

**LEVEL 3**

The three areas of focus continue with a greater emphasis on strategy and integration. Alongside these are modules which develop specific skills in multimedia and copywriting. You also learn about the planning, decision-making, global & entrepreneurship aspects of marketing and the entertainment industry.

The Media Marketing Project further develops the academic and practical aspects of your chosen areas of study and reinforces your independent learning skills.

### Common Modules
- Audiences, Consumption and Technology
- Copywriting
- Integrated Marketing Communications
- Media, Ethics and Politics
- Strategic Marketing Planning
- Video Recording & Production

### Specialised Modules
- Global Marketing
- Investigations in Media Marketing
- Marketing Decision Making
- Media Marketing Project
- Strategic Entrepreneurship and the Entertainment Industry

---

**BA (Hons) in Media Marketing**

- A thorough understanding of the issues relating to effective human computer interaction.
- A clear appreciation of the user interface and the skills to develop interactive multimedia applications.
- An opportunity to undertake a major project where the acquired knowledge and research skills will be used to explore an aspect of media marketing.
THIS PROGRAMME IS SPECIFICALLY DESIGNED TO PROVIDE:

• A thorough understanding of the issues relating to effective human computer interaction.
• A clear appreciation of the user interface and the skills to develop interactive multimedia applications.
• An opportunity to undertake a major project where the acquired knowledge and research skills will be used to explore an aspect of Social Media with a business context.

LEVEL 1

Level 1 is common to both Media awards and is designed to enable you to make an informed choice between these alternatives at Level 2. This Level introduces you to new media, aspects of Management & Marketing and Multimedia. The skills relevant for business and IT in the workplace are also covered. Important and relevant skills for independent learning are introduced.

Common Modules with BA (Hons) in Media Marketing and BSc (Hons) in Media Informatics
• Audio Visual Technology
• Business and Communications Skills
• Computing and IT in the Workplace
• Digital Image Production
• Interactive Media and Web Design Technology
• Introduction to Management
• Introduction to Theories of Media and Culture
• Marketing
• Mass Media to Multimedia
• Understanding the Press

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

The three areas of focus at this level are Media, Marketing Communications and Social Media. You will also develop awareness and skills in dealing effectively with customers. All the modules address one or more aspects of these areas.

Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

Common Modules
• Advertising
• Media Culture and Society
• New Creative Media Industries
• Public Relations
• Research Methods
• Script Writing for Radio & TV

Specialised Modules
• Advanced Social Media Technologies
• Communications Audit
• Customer Lifestyles and Behaviour
• E-Marketing
• Interactive Marketing
• Social Media Campaign Management
• Social Media Technologies

LEVEL 3

The three areas of focus continue with a greater emphasis on strategy and integration. Alongside these are modules which develop specific skills in multimedia and social networking. You also learn about the planning, decision-making, global & entrepreneurship aspects of marketing and the entertainment industry.

The Media Marketing with Social Media Project develops the academic and practical aspects of your chosen areas of study and reinforces your independent learning skills.

There is a further emphasis of Social Media with the introduction of the Social Media Project module which inculcates students with analytical and problem solving ability in meeting many different situations that require solutions on the use of new emerging media for marketing purpose and brand building.

Common Modules
• Audiences, Consumption and Technology
• Copywriting
• Integrated Marketing Communications
• Strategic Marketing Planning

Specialised Modules
• Global Marketing
• Investigations in Social Media Marketing
• Law & Ethics in Social Media
• Marketing Decision Making
• Public Relations 3.0
• Social Media Marketing Project
• Social Media Marketing Strategies

Note: The specialism will appear only in the academic transcript.
