Mauritian Community @ Asia Pacific University

Mauritian Community @ Asia Pacific University

"With more 100 students from Mauritius, APU has its own Mauritian Community. The main purpose of having the community is to ensure that the mauritian students 'feel home away from home'. The Mauritian Community organises annually the celebration of the Mauritius independence day @ APU. It also merges with other communities to organise multicultural events. Very often, gatherings will be organised to celebrate the different religious festivals and end of year get-togethers. In terms of recreational activities, the community members do frequently participate in Futsal, Taekwondo tournament to defend the country colours."

Shresta Devi Bijloll
First Class Honours Graduate
Bachelor in Banking and Finance (Hons)
APU Valedictorian - November 2016 Graduation
Mauritius Laureate Student 2012

Studying at APU is not just about obtaining a quality education - it's also a life-changing experience. It's a journey that prepares students for the future and enables them to develop not only professionally, but also personally through involvement in a wide variety of clubs ranging from sports to literature and many more. It contributes to the enhancement of skills, knowledge, exposure and experience in the students. APU offers its students a conducive learning environment through state-of-the-art technologies and learning materials. The friendly lecturers are equipped with updated knowledge of the industries and their ability to relate it to real-world examples make the classes ever more interesting. The very multicultural students community enables us to mix around and learn together with students from over 110 countries - and that's just an amazing experience. Choosing to study at APU was one of the best decisions I ever made!

Bibi Jehaan Naailah Ghaseeta
Graduate
B.Sc (Hons) in Information Technology
(specialism in Forensic Computing)
APU 30% Merit Scholarship Award Winner

APU has not only given me the chance to study what I wanted but it has also helped me develop the essential skills I needed to secure my dream job right after graduation! Studying and working alongside with people from all over the world was a knowledge-and-exposure enriching experience. My lecturers and other staffs were very friendly and helpful. The excellent study resources and facilities provided to us were top-notch and APU always encouraged me to think "outside-the-box" and opened my eyes into a whole new horizon. I was also a proud member of the Student Welcome Team and Student Ambassadors Team. The challenges that I went through in my student life being away from my family and beloved Mauritius had actually transformed me into the independent and responsible person that I am today. I am now working in the IT Security Team of an international company in Malaysia and I'm proud to say that I'm an APU Graduate!

Woodun Dhandevi
Current Student
Year 2, BSc (Hons) in Actuarial Studies
APU 50% Merit Scholarship Award Winner

APU offers a remarkable academic environment and interdisciplinary initiatives, and this is why I'd heartily recommend the university to all students. APU is not only renowned for its quality education but also for its proven track record of employable graduates. To be honest, I was primarily attracted by these outstanding specifics of the university. Studying Actuarial Science is challenging, but the level and content of the lectures immensely enable students to understand the modules and to succeed with flying colors. APU outstands itself from other universities for its academic facilities and resources as well as its student support services, without which life at APU would not have been dynamic and exciting. I wouldn't have benefited from all these if I hadn't been awarded the generous 50% Merit Scholarship by APU. I take this opportunity to pay my gratitude to APU for its financial support and most significantly for its quality education.

Mohammad Bilal Goolfee
Graduate
-B. Eng (Hons) in Mechatronics Engineering
Member of APU Taekwondo Club

We are all students of this subject called "Life". Had it not been for the nearly 5 years I spent in APU, I'd still be struggling to tackle simple issues in daily life. No doubt that formal classes are important, but the real education starts outside, by interacting with others. Being a 1st Dan Black Belt in Taekwondo, I proudly represented APU as an all-time gold medalist and a State Referee in the Malaysian Taekwondo Community. I started Taekwondo as a beginner when I first joined APU and it was an opportunity for me to discover a passion of mine.

I stepped in APU as a shy, reserved person and throughout the years, I had built up my personality to becoming an individual that people looked up to for advice and motivation - thanks to the numerous clubs and societies that I had the chance to join. Indeed, there were ups and downs in this memorable journey. But if I had the chance, I would experience it all over again. As my father rightly said, iUniversity is where you start living.

Luqman Sorefan
Current Student - Year 1,
BA (Hons) in Accounting and Finance

A student's life can be very challenging during the first few months in an unknown country. But as a fresh student at APU, my adaptation period was quite brief - thanks to the Student Welcome Team who helped me settle in well. The activities organised helped me mingle with international students from all over the world. Lecturers are very caring and made me feel at home. I got used to the Malaysian lifestyle quickly as the people here are friendly. After 4 months here, I'm now fully settled and fully geared up to achieve my targets and make my dreams come true @ APU!
