WHAT IS TOPIK?
TOPIK, Test of Proficiency in Korean, is a written test designed to measure the ability of non-native speakers for expression and comprehension in the Korean language. TOPIK test measures proficiency in reading, writing, and listening comprehension in the Korean language. The test has three different levels: Beginner, Intermediate and Advanced. Further accuracy is expressed through six grades, two matched to each level to evaluate proficiency.

WHAT IS KLAT?
The Korean Language Ability Test (세계한국말인증시험), i.e., KLAT, is a standardized Korean test offered internationally in South Korea and worldwide. Korean Language Proficiency Test or KLPT is the former name. They developed this exam was developed to evaluate the Korean ability of non-native Korean speakers.

What is the difference between the part time and full time programmes?
The Full time programme is more academic in focus as it emphasize on reading, writing, listening, and speaking and grammar. Students who enrol for the full time programme are usually looking to further their studies to Korean Universities.

The Part Time programme is more focused on learning for fun, able to speak and listen to Korean Language, watching K-Dramas/movies without sub titles.

My Korean Language has improved a lot after attending the Korean language class at APU. The Professor from DSU (Dr. Seo Kyu Won) is a Korean and he is like a talkative and super friendly Uncle. Besides teaching the Korean language programme, he also teaches us a lot about Korea Culture and how local Koreans speak instead of focusing entirely on the textbook. The fee for the programme is also very affordable, especially for APU students.

CHEN LIK KEN

It has made learning Korean very enjoyable by making it very engaging. Everyone has a chance to practice together during class. Dr Seo is also very patient and kind with us. This course has been by far the most effective to me.

NADJA MARY QUIMSON

My Korean language has improved very much after taking the course. Before learning Korean in APU, I only know to speak a little by watching korean dramas. But after learning at APLC, I understand more about Korean Language and how to pronounce it correctly. The teacher is very funny too as he makes jokes and make our class so exciting and make the students study happily.

NG CHIN SHIAN

The classes were really interesting which I have learned a lot from Dr Seo. At first, I was really worried about myself joining the class with zero basic knowledge but after joining the class, I found out that the lessons are easy to understand and at the end of the day I’m able to achieve lots of useful knowledge. Now I’m trying to read and understand Korean subtitles without any translation. It’s fun!! Also I’m grateful to have friendly teacher and classmates, making me enjoy all the time learning Korean language!

TEONG ZHI ROU

I have learnt a lot within these 6 weeks of classes. The classes were super fun, entertaining and more importantly interactive. It was easy to understand although the teacher is a native Korean speaker. I really enjoyed the speaking and listening activities in class. When everyone is familiar with some Korean phrases, we will just answer the teacher’s questions in Korean and it sometimes turned out to be fun! But we learned a lot from it. On top of that, My classmates were really supportive and fun to learn with. Now, I know more about the Korean vocabulary and grammar, and I am able to create a perfect complete sentence! I am truly thankful to get the opportunity to join this Korean Language Programme especially when I am preparing to further my studies in Korea soon.
